**"I've been working hard with my colleagues in Congress to craft bipartisan solutions to our most serious problems"**

– Bart Gordon

## Educating Our Children Is An Investment In All Our Futures

Local schools need help to repair buildings, reduce class size and keep qualified teachers in the classroom.

## Doctors & Patients Should Make Health-Care Decisions

We need a patients' bill of rights that holds HMOs accountable and gives us control of our health care.

## Social Security & Medicare Benefits For The Future

Benefits must be preserved and affordable prescription drugs included in Medicare.

## Safeguard Hard-Earned Retirement Savings

Ensure employees have the same rights as CEOs and companies are held accountable for misleading employees and investors.
